Saw Operator

1/9/2018

Andron Stainless is looking for saw operator. Experience is a plus but not necessary, although previous experience in an industrial environment is preferred. Equipment used is manual and automated band saws and an automated cold saw.

Candidate should be able to read a blue print, tape measure and run the machines to produce in tolerance parts. The candidate must also be able to stand for prolonged periods of time and regularly lift up to 50lbs. Candidate will also be required to wear eye protection at all times. He/she will ensure all equipment is kept in proper working order.

The successful candidate will have solid attendance record and punctuality. He/she must be a proactive team player and adaptable to change. He/she must also have good communication, math and organizational skills.

Climate controlled environment. Excellent benefits and competitive salary based on qualifications.
