

TIG Welder

Andron Stainless has an immediate opening for a TIG welder in our facility located in Columbia, SC. Daily activities will include welding, set up, and layout work for thin wall stainless steel. Units being used are Miller Dynasty and Miller Maxstar units. Candidate will be responsible for laying out a part from a blue print, setting up the machine, fixturing the part, and running the machine to produce the finished part. He/she will ensure all gauging and equipment is in proper working order.

Benefits include medical, dental, life, and long-term disability insurance. A 401k program is available, along with a generous vacation program, and competitive pay based on qualifications. This is a first shift opportunity, working 6:00 am to 4:30 pm, Monday to Thursday in a climate controlled environment.
